Lead is not mentioned in the briefing paper, nor in the letter to Pruitt, but I would think they will bring up the lead levels that were identified during the sampling, does Sam and Doug have a response for that issue. Homes above 400 for Pb - 51, above 5500 for Mn - 5. Not aware of any new air issues.

Brad, should we run this by Nicole and the air folks before I send to Doug? Is lead an issue that may come up?

FYI – the RA will now meet with Sen. Durbin, Sen. Duckworth and Rep. Kelly in D.C. on September 25.

Will you please review the attached briefing paper on SH Bell/General Iron and update, if needed?

Thanks,
Denise

Subject: Chicago Elected Officials Meeting Preparation

Good morning,

In preparation for tomorrow's 2pm meeting regarding southeast Chicago pollution, please find the following attached:

- A briefing paper on S.H. Bell, with a few bullets on General Iron;
- The letter from the four elected officials to EPA and the RA's response;
- Bios for the four elected officials; and
- A few articles about southeast Chicago pollution, including one on General Iron.

Please let me know if you have any questions,
